Why Private Coaching?

The fastest way to become successful at trading is to find a program that is successful and follow it. It takes years of trial and error to become successful at trading on your own. 95% of options traders fail because they don't know how to trade effectively in all markets. This inexperience leads to costly mistakes that wipe out their trading capital.

The Trading Profit Private Coaching Group has had over 100 students graduate through the program by teaching them to follow a patented 7 step trading plan centered around four of our top strategies.

Learn How To Trade Like A Professional In Only A Few Short Weeks

Our Private Coaching students are given a clear path to success that drastically reduces the learning curve. Our students learn how to trade strategies that have outperformed even the top hedge funds.

Live Webinars With Q&A

Each week we showcase one strategy on a Live Interactive Q&A Webinar that lasts between 2.5-4 hours each. We do not end the meeting until all questions are answered. The webinars are recorded and are accessible in the members area to view at your convenience.

Private Coaching Forum

Coaching students have access to an Exclusive Private Coaching Forum on Facebook where they can meet online to share best practices, ask questions and interact with coaches, fellow students and former graduates.

Look Over Jeff's Shoulder As He Trades

In each weekly webinar the coaching students watch Jeff place live trades to help reinforce the teaching. Jeff walks through the trades step-by-step and gives all the secret inside tips to find and manage successful trades. Trade updates are given in the Private Forum and at the beginning of the Training Webinars.

Secret Ticker List

The Mastermind Coaching program takes all of the guesswork out of choosing which tickers to choose with each strategy. We supply our students with the most updated version of the best tickers to maximize their gains from day one.

One-On-One Private Phone Call With Jeff Tompkins

The students receive a private one-on-one phone call 30 days after the coaching month ends to help answer questions that are discovered in live trading.

Coaching Doesn't End...

Most coaching programs end after a few weeks of teaching. The Trading Profit's Coaching graduates are members for life. Our students have VIP email access for any and all questions.
